Mouse anti Human CD15-NA FITC, IgG3, Clone: [MCS-1], Monoclonal NMB-X1496M

Artikelname	Mouse anti Human CD15-NA FITC, IgG3, Clone: [MCS-1], Monoclonal
Artikelnummer	NMB-X1496M
Hersteller Artikelnummer	X1496M
Alternativnummer	NMB-X1496M
Hersteller	NordicMubio
Wirt	Mouse
Kategorie	Antikörper
Applikation	FC
Spezies Reaktivität	Human
Konjugation	FITC
Produktbeschreibung	CD15-FITC is a monoclonal antibody (MAb) labelled with fluorescein isothiocyanate (FITC) designed for use as a direct immunofluorescence reagent in the identification and enumeration of cells which express the CD15 antigen by flow cytometry. The CD15...
Klonalität	Monoclonal
Konzentration	Titered for flow cytometry
Klon-Bezeichnung	[MCS-1]
Isotyp	IgG3

Puffer	Provided as an aqueous buffered solution containing protein stabilizer and 0.09% sodium azide.
Reinheit	Affinity Chromatography
Anwendungsbeschreibung	This CD15 antibody is an IgG3 antibody as compared to other CD15 antibodies available which are IgMs. These IgMs cause the cells labeled with them to aggregate in the cytometer and read as one cell, producing lower numbers of cells to be reported. Our
