Mouse anti Phosphotyrosine, conjugated with peroxidase, IgG2b, Clone: [PY20], HRP, Monoclonal NMB-X1018

Artikelname	Mouse anti Phosphotyrosine, conjugated with peroxidase, IgG2b, Clone: [PY20], HRP, Monoclonal
Artikelnummer	NMB-X1018
Hersteller Artikelnummer	X1018
Alternativnummer	NMB-X1018
Hersteller	NordicMubio
Wirt	Mouse
Kategorie	Antikörper
Applikation	EIA, IHC, IP, WB
Spezies Reaktivität	All
Immunogen	Hybridoma produced from Balb/C mice immunized with phosphotyrosine coupled to carrier protein.
Konjugation	HRP
Produktbeschreibung	The role of tyrosine phosphorylation in transduction of the mitogenic signal from transmembrane receptors and in transformation by oncogene tyrosine kinases has been the subject of intense investigation for several years. While the phosphorylation of...
Klonalität	Monoclonal
Konzentration	See vial for concentration

Klon-Bezeichnung	[PY20]
Isotyp	IgG2b
Puffer	Provided in 60% glycerol, phosphate buffered saline, and 0.1% 2-Chloroacetamide
Reinheit	Prot A/G
Formel	Provided in 60% glycerol, phosphate buffered saline, and 0.1% 2-Chloroacetamide
Anwendungsbeschreibung	Application: A dilution of 1:2,000 is suggested for western blot or ELISA, 1:500 for immunoprecipitation, immunohistochemistry, or immunocytochemistry.
