Product Datasheet

Rabbit anti Human Ceramide Glycosyltransferase, Unconjugated NMB-X1700P

Artikelname	Rabbit anti Human Ceramide Glycosyltransferase, Unconjugated
Artikelnummer	NMB-X1700P
Hersteller Artikelnummer	X1700P
Alternativnummer	NMB-X1700P
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Applikation	ELISA, WB
Spezies Reaktivität	Human
Konjugation	Unconjugated
Produktbeschreibung	Ceramide Glycosyltransferase may serve as a flippase as well as a glucosyltransferase that transfers glucose to ceramide. It Catalyzes, UDP-glucose + N-acylsphingosine = UDP + D-glucosyl-N-acylsphingosine. Ceramide Glycosyltransferase is the first ste...
Konzentration	See vial for concentration
UniProt	Q16739
Puffer	Provided as solution in phosphate buffered saline with 0.08% sodium azide
Quelle	Rabbits were immunized with a synthetic peptide derived from human ceramide glycosyltransferase protein.

Reinheit	Ammonium Sulfate Precipitation
Anwendungsbeschreibung	Antibody can be used for Western blotting (5-10µg/ml) and ELISA. Other applications not yet tested. Optimal concentration should be evaluated by serial dilutions.
