Rabbit anti-native Green Fluorescent Protein (Immunoaffinity purified), Clone: [Polyclonal], Monoclonal NMB-BII-NGFPAB4-100

Artikelname	Rabbit anti-native Green Fluorescent Protein (Immunoaffinity purified), Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-BII-NGFPAB4-100
Hersteller Artikelnummer	Bii-nGFPab4-100
Alternativnummer	NMB-BII-NGFPAB4-100
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Applikation	ELISA, ICC, WB
Produktbeschreibung	Green fluorescent protein (GFP) is a 27kD protein which was originally identified in the photo organs of Aequorea victoria (A. victoria) jellyfish. GFP is a naturally fluorescent protein which emits green light at a maximum wavelength of 509 nm when ...
Klonalität	Monoclonal
Konzentration	1mg/ml
Klon-Bezeichnung	[Polyclonal]
UniProt	P42212
Puffer	Each vial contains 100µl 1 mg/ml immunoaffinity purified polyclonal antiserum in 10 mM TRIS buffer pH 8.0, containing 0.02% sodium azide.

Quelle	The anti-GFP antibody is a rabbit polyclonal antiserum obtained from rabbits immunised with highly purified native GFP derived from <i>Aequorea victoria</i> jellyfish.
Reinheit	Immunoaffinity purified
Formel	Each vial contains 100µl 1 mg/ml affinity purified polyclonal antiserum in 10 mM TRIS buffer pH 8.0, containing 0.02% sodium azide.
Anwendungsbeschreibung	The antibody is suitable for the detection of GFP and its variants by Western blotting, ELISA and Immunocytochemistry.
