Rabbit anti Rat Potassium Channel, Unconjugated NMB-X1038

Artikelname	Rabbit anti Rat Potassium Channel, Unconjugated
Artikelnummer	NMB-X1038
Hersteller Artikelnummer	X1038
Alternativnummer	NMB-X1038
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Applikation	IF, IP, WB
Spezies Reaktivität	Rat
Konjugation	Unconjugated
Produktbeschreibung	Pore-forming (alpha) subunit of voltage-gated rapidly inactivating A-type potassium channels. May contribute to I _{current} in heart and current in neurons. Channel properties are modulated by interactions with other alpha subunits and with regulatory s...
Konzentration	See vial for concentration
Isotyp	IgG
UniProt	Q63881
Puffer	Provided as solution in phosphate buffered saline with 0.08% sodium azide

Quelle	Rabbits were immunized with a peptide representing amino acids 453-470 of rat Kv4.2 conjugated to KLH.
Reinheit	Ammonium Sulfate Precipitation
Formel	Provided as solution in phosphate buffered saline with 0.08% sodium azide
Anwendungsbeschreibung	Optimal antibody concentration should be evaluated by serial dilutions. Suggested Western Blot dilution 1:1000. Other applications: Immunoprecipitation, immunofluorescence.
