### **Goat anti Guinea Pig C3c, conjugated with Horseradish peroxidase, Clone: [Polyclonal], HRP, Monoclonal NMB-GAGP/C3C/PO**

|                          |  |
|--------------------------|--|
| Artikelname              | Goat anti Guinea Pig C3c, conjugated with Horseradish peroxidase, Clone: [Polyclonal], HRP, Monoclonal   |
| Artikelnummer            | NMB-GAGP/C3C/PO  |
| Hersteller Artikelnummer | GAGp/C3c/PO  |
| Alternativnummer         | NMB-GAGP/C3C/PO  |
| Hersteller               | NordicMubio  |
| Wirt                     | Goat   |
| Kategorie                | Antikörper   |
| Konjugation              | HRP  |
| Produktbeschreibung      | In immunoelectrophoresis against fresh guinea pig serum, a single precipitin line is obtained in the beta-1 region representing native C3. Against serum containing partly activated C3, a precipitin line is obtained which extends from the beta-1 into ...  |
| Klonalität               | Monoclonal   |
| Klon-Bezeichnung         | [Polyclonal]   |
| Puffer                   | Peroxidase-coupled purified hyperimmune IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2) No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun dow |

|                        |   |
|------------------------|---|
| Quelle                 | C3 is the most abundant complement protein in guinea pig serum. Its biological function strongly resembles that of C3 in man and other laboratory animal species. It has a central role in the activation system being common to both pathways. Activation of |
| Formel                 | Peroxidase-coupled purified hyperimmune IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2) No preservative added, as it may interfere with the antibody activity.   |
| Anwendungsbeschreibung | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.  |
