Product Datasheet

Goat anti Human thyroxine binding globulin, Clone: [Polyclonal], Monoclonal NMB-GAHU/TBG

Artikelname	Goat anti Human thyroxine binding globulin, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-GAHU/TBG
Hersteller Artikelnummer	GAHu/TBG
Alternativnummer	NMB-GAHU/TBG
Hersteller	NordicMubio
Wirt	Goat
Kategorie	Antikörper
Produktbeschreibung	The reactivity of the antiserum is restricted to thyroxine binding globulin. In immunoelectrophoresis and radial immunodiffusion (Ouchterlony), using various antiserum concentrations against fresh normal human plasma a single precipitin line is obtai...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P05543
Puffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized an

Quelle	Thyroxine binding is a protein with a molecular weight of 55,700 kD. The protein is binding thyroxine as well as triiodothyronine. In immunoelectrophoresis it has a alpha mobility. The mean concentration in normal human serum is about 40 µg/ml. Elevated
Formel	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affec
