Product Datasheet

Goat anti Rat fibrinogen, conjugated with Biotin, Clone: [Polyclonal], Monoclonal NMB-GARA/FBG/BIO

Artikelname	Goat anti Rat fibrinogen, conjugated with Biotin, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-GARA/FBG/BIO
Hersteller Artikelnummer	GARa/Fbg/Bio
Alternativnummer	NMB-GARA/FBG/BIO
Hersteller	NordicMubio
Wirt	Goat
Kategorie	Antikörper
Konjugation	Biotin
Produktbeschreibung	The reactivity of the antiserum is restricted to fibrinogen. In immunoelectrophoresis and radial immunodiffusion (Ouchterlony), using various antiserum concentrations against normal rat plasma a single precipitin line is obtained which shows a reacti...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P06399
Puffer	Biotin-coupled purified hyperimmune IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2) No preservative added as it may interfere with the antibody activity.

Quelle	Fibrinogen (clotting factor I) is a heat labile beta glycoprotein present in plasma. It is the precursor of fibrin, which is the key protein constituting the network of the blood clot. Thrombin converts fibrinogen to fibrin by limited proteolysis. Fibrin
Formel	Biotin-coupled purified hyperimmune IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2) No preservative added as it may interfere with the antibody activity.
Anwendungsbeschreibung	ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting. The lyophilized conjugate is shipped at ambient temperature and may be stored at +4C, prolonged storage at or below -20C. It is reconstituted by adding 1 ml sterile dist
