## Product Datasheet

### **Rabbit anti Horse IgG (heavy and light chains), conjugated with Horseradish peroxidase, Clone: [Polyclonal], HRP, Monoclonal NMB-RAHO/IGG(H+L)/PO**

|                          |   |
|--------------------------|---|
| Artikelname              | Rabbit anti Horse IgG (heavy and light chains), conjugated with Horseradish peroxidase, Clone: [Polyclonal], HRP, Monoclonal  |
| Artikelnummer            | NMB-RAHO/IGG(H+L)/PO  |
| Hersteller Artikelnummer | RAHo/IgG(H+L)/PO  |
| Alternativnummer         | NMB-RAHO/IGG(H+L)/PO  |
| Hersteller               | NordicMubio   |
| Wirt                     | Rabbit  |
| Kategorie                | Antikörper  |
| Konjugation              | HRP   |
| Produktbeschreibung      | The reactivity of the antiserum is directed to the Fc and Fab subunits of the IgG molecule. It includes a certain degree of reactivity with other immunoglobulins via the common Fab portion. It does not react with any non-Ig protein in horse serum, as... |
| Klonalität               | Monoclonal  |
| Klon-Bezeichnung         | [Polyclonal]  |
| Puffer                   | Peroxidase-coupled purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, |

|                        |   |
|------------------------|---|
| Quelle                 | Purified normal IgG isolated from pooled horse serum. Freund's complete adjuvant is used in the first step of the immunization procedure.   |
| Formel                 | Peroxidase-coupled purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. |
| Anwendungsbeschreibung | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.  |
