Product Datasheet

Rabbit anti Human C1 esterase inhibitor, Clone: [Polyclonal], Monoclonal NMB-RAHU/CEI

Artikelname	Rabbit anti Human C1 esterase inhibitor, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/CEI
Hersteller Artikelnummer	RAHu/CEI
Alternativnummer	NMB-RAHU/CEI
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	The reactivity of the antiserum is restricted to C1 esterase inhibitor. In immunoelectrophoresis and dial immunodiffusion (Ouchterlony), using various antiserum concentrations against fresh normal human plasma a single precipitin line is obtained whi...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P05155
Puffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized

Quelle	C1 esterase inhibitor is a single chain acid glycoprotein with a molecular weight of 110,000. The protein has a high carbohydrate content. In immunoelectrophoresis it has an alpha mobility. The concentration in normal serum ranges from 150 to 350 µg/ml. R
Formel	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays.
