Product Datasheet

Anti-Phospho-mTOR (S2448) Antibody [A5D5], IgG1, Unconjugated, Mouse, Monoclonal HBO-HA600094

Artikelname	Anti-Phospho-mTOR (S2448) Antibody [A5D5], IgG1, Unconjugated, Mouse, Monoclonal
Artikelnummer	HBO-HA600094
Hersteller Artikelnummer	HA600094
Alternativnummer	HBO-HA600094
Hersteller	HUABIO
Wirt	Mouse
Kategorie	Antikörper
Applikation	IHC-P, WB
Spezies Reaktivität	Human, Mouse, Rat
Immunogen	Synthetic peptide within human mTOR aa 2430-2480.
Konjugation	Unconjugated
Produktbeschreibung	The phosphatidylinositol kinase (PIK) family members fall into two distinct subgroups. The first subgroup contains proteins such as the PI 3- and PI 4-kinases and the second group comprises the PIK-related kinases. The PIK-related kinases include Atm...
Klonalität	Monoclonal
Konzentration	2 mg/mL.
Klon-Bezeichnung	[A5D5]

Molekulargewicht	Predicted band size: 289 kDa
Isotyp	IgG1
UniProt	P42345
Puffer	PBS (pH7.4), 0.05% BSA, 40% Glycerol. Preservative: 0.05% Sodium Azide.
Reinheit	Protein G affinity purified.
Formulierung	Liquid
Target-Kategorie	Serine/threonine-protein kinase mTOR FK506-binding protein 12-rapamycin complex-associated protein 1 FKBP12-rapamycin complex-associated protein Mammalian target of rapamycin mTOR Mechanistic target of rapamycin Rapamycin and FKBP12 target 1 Rapamycin ta
Antibody Type	Primary Antibody
Application Verdünnung	WB: 1:500-1:2,000 ,IHC-P: 1:50-1:200
