| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Fusion protein amino acids 395-493 (cytoplasmic C-terminus) of human AMIGO-1 (accession number Q86WK6) produced recombinantly in E. Coli                                                                                                                      |
| Konjugation              | FL594                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Amphoterin-induced protein 1, amphoterin-induced gene and open reading frame, Adhesion Molecule With Ig Like Domain 1 or Amigo-1 is encoded by the gene AMIGO1 and is a member of the AMIGO family. Amigo1 acts as a neuronal adhesion protein and contain... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                  |                                               |
|------------------|-----------------------------------------------|
| Klon-Bezeichnung | [L86A/37]                                     |
| Molekulargewicht | 60-80 kDa depending on maturity/glycosylation |
| Isotyp           | IgG2b                                         |
| UniProt          | <a href="#">Q80ZD8</a>                        |
| Puffer           | PBS with 0.09% azide                          |
| Reinheit         | Purified by Protein A chromatography          |
| Formulierung     | Liquid                                        |
| Target-Kategorie | AMIGO-1                                       |
| Antibody Type    | Primary Antibody                              |
