| Hersteller               | Antibodies Incorporated                                                                                                                                                                                                                                       |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Fusion protein amino acids 342-431 (cytoplasmic loop) of human GlyRA3L (accession number O75311) produced recombinantly in E. Coli                                                                                                                            |
| Konjugation              | FL594                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Glycine is an important inhibitory transmitter in the brainstem and spinal cord. Glycine receptors are members of the ligand-gated ion channel family (LGICs) that mediate rapid chemical neurotransmission (Schofield et al., 2003). The binding of glyci... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                  |                                      |
|------------------|--------------------------------------|
| Klon-Bezeichnung | [N424/48]                            |
| Molekulargewicht | 55 kDa                               |
| Isotyp           | IgG1                                 |
| UniProt          | <a href="#">O75311</a>               |
| Puffer           | PBS with 0.09% azide                 |
| Reinheit         | Purified by Protein A chromatography |
| Formulierung     | Liquid                               |
| Target-Kategorie | Glycine receptor Alpha3L             |
| Antibody Type    | Primary Antibody                     |
