| Wirt                     | Human                                                                                                                                                                                                                                                          |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                               |
| Molekulargewicht         | The secreted recombinant mouse B7H4/Fc is a disulfide-linked homodimer. The reduced monomer comprises 469 amino acids and has a calculated molecular mass of 52.2 kDa. The apparent molecular mass of rmB7H4/Fc monomer is approximately 70-75 kDa in SDS-PAGE |
| Quelle                   | Mouse                                                                                                                                                                                                                                                          |
| Reinheit                 | > 95 % as determined by SDS-PAGE                                                                                                                                                                                                                               |
| Anwendungsbeschreibung   | For Research Use Only. Not intended for any clinical use.                                                                                                                                                                                                      |
