## Product Datasheet

### **Recombinant Human Activin Receptor 2B/ACVR2B Protein (Fc & His Tag)(Active) ELA-PKSH032041**

|                          |  |
|--------------------------|--|
| Artikelname              | Recombinant Human Activin Receptor 2B/ACVR2B Protein (Fc & His Tag)(Active)  |
| Artikelnummer            | ELA-PKSH032041   |
| Hersteller Artikelnummer | PKSH032041   |
| Alternativnummer         | ELA-PKSH032041-50, ELA-PKSH032041-10   |
| Hersteller               | Elabscience  |
| Kategorie                | Proteine/Peptide   |
| Applikation              | ELISA  |
| Spezies Reaktivität      | Human  |
| Molekulargewicht         | 60 kDa   |
| Tag                      | C-Fc-6His  |
| NCBI                     | <a href="#">13705</a>  |
| UniProt                  | <a href="#">Q13705</a>   |
| Expression System        | HEK293 Cells   |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.   |
| Formulierung             | Lyophilized from a 0.2 um filtered solution of 20mM PB,150mM NaCl,pH7.4.Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.Please refer to the specific buffer information in the printed manual. |

|                  |                            |
|------------------|----------------------------|
| Sequenz          | Ser19-Thr134               |
| Target-Kategorie | Activin Receptor 2B,ACVR2B |
