| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                         |
| Molekulargewicht         | 65-95 kDa                                                                                                                                                                                                                                |
| Tag                      | C-Fc                                                                                                                                                                                                                                     |
| NCBI                     | <a href="#">5</a>                                                                                                                                                                                                                        |
| UniProt                  | <a href="#">Q5VAN0</a>                                                                                                                                                                                                                   |
| Expression System        | HEK293 Cells                                                                                                                                                                                                                             |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                               |
| Formulierung             | Lyophilized from a 0.2 um filtered solution of PBS,pH 7.4.Normally 5 % - 8 % trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization.Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Leu44-Ile301                                                                                                                                                                                                                             |
| Target-Kategorie         | CD38,ADP-ribosyl Cyclase 1                                                                                                                                                                                                               |
