| Kategorie                | Antikörper                                                                                                                                                                                                                                        |
| Applikation              | FC, IF, WB                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                 |
| Immunogen                | 75-170/223                                                                                                                                                                                                                                        |
| Konjugation              | AbFluor 680                                                                                                                                                                                                                                       |
| Produktbeschreibung      | Inhibitory receptor acting as a major negative regulator of T-cell responses. The affinity of CTLA4 for its natural B7 family ligands, CD80 and CD86, is considerably stronger than the affinity of their cognate stimulatory coreceptor CD28.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                        |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">1493</a>                                                                                                                                                                                                                              |

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| Puffer                 | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol. |
| Quelle                 | KLH conjugated synthetic peptide derived from human CTLA-4/CD152                                       |
| Reinheit               | Purified by Protein A.                                                                                 |
| Target-Kategorie       | CTLA4                                                                                                  |
| Application Verdünnung | WB(1:300-5000), FCM(1:20-100), IF(IHC-P)(1:50-200)                                                     |
