## Product Datasheet

### **PMCH antibody - N-terminal region (AVARP13054\_T100), Rabbit, Polyclonal ASB-AVARP13054**

|                          |                                                                                                                                                                                                                                                         |

| Kategorie                | Antikörper                                                                                                                                                                                                                                              |
| Applikation              | WB                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Bovine, Mouse, Porcine, Rat                                                                                                                                                                                                                             |
| Immunogen                | The immunogen is a synthetic peptide directed towards the N terminal region of human PMCH                                                                                                                                                               |
| Produktbeschreibung      | MCH may act as a neurotransmitter or neuromodulator in a broad array of neuronal functions directed toward the regulation of goal-directed behavior, such as food intake, and general arousal. May also have a role in spermatocyte differentiation.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                              |
| Konzentration            | 1.0 mg/ml                                                                                                                                                                                                                                               |
| Molekulargewicht         | 19kDa                                                                                                                                                                                                                                                   |

|              |                                                                                                   |
