| Produktbeschreibung      | Recombinant Mouse Pantothenate Kinase 2 (PANK2) is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Pantothenate Kinase 2 (PANK2).... |
| Molekulargewicht         | 36kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">74450</a>                                                                                                                                                                                                                                         |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |
| Expression System        | Prokaryotic Expression                                                                                                                                                                                                                                        |

|                  |                               |
|------------------|-------------------------------|
| Reinheit         | >90% by SDS-PAGE              |
| Formulierung     | Freeze-Dried Powder           |
| Target-Kategorie | Pantothenate Kinase 2 (PANK2) |
