| Produktbeschreibung      | Recombinant Mouse Deducator Of Cytokinesis 5 (DOCK5) is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Deducator Of Cytokinesis ... |
| Molekulargewicht         | 37kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">68813</a>                                                                                                                                                                                                                                         |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |
| Expression System        | Prokaryotic Expression                                                                                                                                                                                                                                        |

|                  |                                    |
|------------------|------------------------------------|
| Reinheit         | >90% by SDS-PAGE                   |
| Formulierung     | Freeze-Dried Powder                |
| Target-Kategorie | Dedicator Of Cytokinesis 5 (DOCK5) |
