| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant Human Phosphopantothenoylcysteine Decarboxylase (PPCDC) is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Phosphopan... |
| Molekulargewicht         | 26kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">60490</a>                                                                                                                                                                                                                                         |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |
| Expression System        | Prokaryotic Expression                                                                                                                                                                                                                                        |

|                  |                                                   |
|------------------|---------------------------------------------------|
| Reinheit         | >90% by SDS-PAGE                                  |
| Formulierung     | Freeze-Dried Powder                               |
| Target-Kategorie | Phosphopantothenoylcysteine Decarboxylase (PPCDC) |
