| Produktbeschreibung      | Recombinant Mouse Filaggrin (FLG) is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Filaggrin (FLG). Target Synonyms: Profilaggr... |
| Molekulargewicht         | 40kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-terminal His Tag                                                                                                                                                                                                                                            |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |
| Expression System        | Prokaryotic Expression                                                                                                                                                                                                                                        |
| Reinheit                 | >90% by SDS-PAGE                                                                                                                                                                                                                                              |
| Formulierung             | Freeze-Dried Powder                                                                                                                                                                                                                                           |
