Claudin18.2/CHO-K1 Stable Cell Line ABI-14-539ACL

Artikelname	Claudin18.2/CHO-K1 Stable Cell Line
Artikelnummer	ABI-14-539ACL
Hersteller Artikelnummer	14-539ACL
Alternativnummer	ABI-14-539ACL-1VIAL
Hersteller	Abeomics
Kategorie	Zellen/Zellkultur
Applikation	FA
Produktbeschreibung	Claudin 18.2 Stable Cell Line is a stably transfected CHO-K1 cell line which expresses human claudin 18.2 (CLDN18.2). CLDN18.2 is a highly selective marker protein that is exclusively expressed in differentiated gastric mucosal membrane epithelial ce...
Application Verdünnung	Application:.. Screen for antibodies of human Claudin 18.2 through Flow Cytometry. Culture conditions: Cells should be grown at 37oC with 5% CO2 using DMEM medium (w/ L-Glutamine, 4.5g/L Glucose and Sodium Pyruvate) supplemented with 10% heat-inactivated
