## Product Datasheet

### **Antibody for the detection of FLAG(TM) conjugated proteins (MOUSE) Monoclonal Antibody, Mouse ABT-ASR4189**

Artikelname	Antibody for the detection of FLAG(TM) conjugated proteins (MOUSE) Monoclonal Antibody, Mouse
Artikelnummer	ABT-ASR4189
Hersteller Artikelnummer	ASR4189
Alternativnummer	ABT-ASR4189-500UG
Hersteller	Abcepta
Wirt	Mouse
Kategorie	Antikörper
Immunogen	This antibody was produced in mice by repeated immunizations with a synthetic peptide corresponding to the FLAG(TM) epitope tag peptide DYKDDDDK (Asp-Tyr-Lys-Asp-Asp-Asp-Asp-Lys) conjugated to KLH using maleimide.
Produktbeschreibung	Epitope tags are short peptide sequences that are easily recognized by tag-specific antibodies. Due to their small size, epitope tags do not affect the tagged proteins biochemical properties. Most often sequences encoding the epitope tag are included...
Klonalität	Monoclonal
Konzentration	1.0 mg/ml
Puffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Reinheit	This product is an IgG fraction antibody purified from ascites by Protein A chromatography followed by extensive dialysis against the buffer stated above. The purified antibody is directed against the FLAG(TM) motif and is useful in determining its presence
Anwendungsbeschreibung	Anti-FLAG antibody has been tested by ELISA and western blot and is optimally suited for monitoring the expression of FLAG(TM) tagged fusion proteins. As such, this antibody can be used to identify fusion proteins containing the FLAG(TM) epitope. The antibody
