Anti-Ubiquitin Activating Enzyme E1 (RABBIT) Antibody, Rabbit, Polyclonal ABT-ASR4406

Artikelname	Anti-Ubiquitin Activating Enzyme E1 (RABBIT) Antibody, Rabbit, Polyclonal
Artikelnummer	ABT-ASR4406
Hersteller Artikelnummer	ASR4406
Alternativnummer	ABT-ASR4406-500UG
Hersteller	Abcepta
Wirt	Rabbit
Kategorie	Antikörper
Spezies Reaktivität	Human
Immunogen	Anti-Ubiquitin Activating Enzyme E1 antibody was prepared from whole rabbit serum produced by repeated immunizations with a recombinant protein corresponding to full length Human Ubiquitin Activating Enzyme E1.
Produktbeschreibung	Ubiquitin Activating Enzyme (E1), also known as A1S9 and UBE1, is responsible for the first step in ubiquitin-protein isopeptide bond formation. E1 catalyzes the activation of the C-terminal carboxyl group of ubiquitin by forming a high-energy thioes...
Klonalität	Polyclonal
Konzentration	1.2 mg/mL
UniProt	P22314

Puffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Reinheit	This antibody is directed against human Ubiquitin Activating Enzyme E1 protein. The product was protein A purified from monospecific antiserum followed by further purification to remove the GST tag. A BLAST analysis was used to suggest that this antibody
Anwendungsbeschreibung	This purified antibody has been tested for use in ELISA, immunohistochemistry and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band at ~118 kDa in size corresponding to UBE1 by western blotting in the app
