Anti-Histone H3 (Rabbit) Antibody, Polyclonal ABT-ASR4467

| | |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname | Anti-Histone H3 (Rabbit) Antibody, Polyclonal |
| Artikelnummer | ABT-ASR4467 |
| Hersteller Artikelnummer | ASR4467 |
| Alternativnummer | ABT-ASR4467-100UG |
| Hersteller | Abcepta |
| Wirt | Rabbit |
| Kategorie | Antikörper |
| Spezies Reaktivität | Human |
| Immunogen | Anti-Histone-3 was prepared from whole rabbit serum produced by repeated immunizations with a peptide corresponding to the c-terminus region of human histone-3. |
| Produktbeschreibung | Histone H3 is one of the five main histone proteins involved in the structure of chromatin in eukaryotic cells. Histone proteins are highly post-translationally modified with Histone H3 being the most extensively modified of the five histones. The N-... |
| Klonalität | Polyclonal |
| Konzentration | 1.0 mg/ml |
| UniProt | P68431 |
| Puffer | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |

| | |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit | Anti-Histone H3 is directed against the human histone 3 protein. The product was protein A purified from monospecific antiserum by immunoaffinity chromatography using protein A coupled to agarose beads. A BLAST analysis was used to suggest reactivity with |
| Anwendungsbeschreibung | Histone H3 antibody has been tested for use in ELISA and western blot. This antibody is suitable for IHC. For western blots expect a band of approximately 15.4 kDa in size corresponding to the Histone 3 protein. Specific conditions for reactivity should |
