Reinheit	This affinity purified antibody is directed against the FLAG(TM) motif and is useful in determining its presence in various assays. This polyclonal anti-FLAG(TM) tag antibody detects over-expressed proteins containing the FLAG(TM) epitope tag. In western blotting
Anwendungsbeschreibung	This antibody is optimally suited for monitoring the expression of FLAG(TM) tagged fusion proteins. As such, this antibody can be used to identify fusion proteins containing the FLAG(TM) epitope. The antibody recognizes the epitope tag fused to either the amin
