| Wirt                     | Rabbit  |
| Kategorie                | Antikörper  |
| Spezies Reaktivität      | Mouse   |
| Immunogen                | This affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to an internal region near aa 575-600 of mouse Hif3 a (Hypoxia Inducible Factor).                              |
| Produktbeschreibung      | One of the most important factors in the cellular response to hypoxia is hypoxia-inducible factor (HIF), which transcriptionally activates genes encoding proteins that mediate adaptive responses to reduced oxygen availability. HIF is a member of the ... |
| Klonalität               | Polyclonal  |
| Konzentration            | 1.2 mg/mL   |

|------------------------|--|
| Reinheit               | This affinity-purified antibody is directed against mouse Hif3alpha protein. The product was affinity purified from monospecific antiserum by immunoaffinity purification. A BLAST analysis was used to suggest cross reactivity with Hif3a protein from mouse |
| Anwendungsbeschreibung | This affinity-purified antibody has been tested for use in ELISA and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 72 kDa in size corresponding to Hif3 alpha protein by western blotting  |
