Product Datasheet

Anti-EGFR (RABBIT) Antibody, Rabbit, Polyclonal ABT-ASR5331

Artikelname	Anti-EGFR (RABBIT) Antibody, Rabbit, Polyclonal
Artikelnummer	ABT-ASR5331
Hersteller Artikelnummer	ASR5331
Alternativnummer	ABT-ASR5331-100UG
Hersteller	Abcepta
Wirt	Rabbit
Kategorie	Antikörper
Spezies Reaktivität	Human
Immunogen	This affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to the C-Terminus near amino acids 1175-1200 of human EGFR protein.
Produktbeschreibung	Anti-EGFR Antibody is ideal for Western Blotting, ELISA and IHC. EGFR is a transmembrane glycoprotein that is a member of a family of protein tyrosine kinases crucial in maintaining a normal balance in cell growth and development. Growth factor recep...
Klonalität	Polyclonal
Konzentration	0.99 mg/ml
UniProt	P00533
Puffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Reinheit	EGFR Antibody is directed against human epidermal growth factor receptor (EGFR) and is useful in determining its presence in ELISA and western blotting experiments. This antibody can detect EGFR from human, mouse and rat sources. Reactivity of this antib
Anwendungsbeschreibung	This affinity purified antibody has been tested for use in ELISA and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 170 kDa in size corresponding to EGFR protein by western blotting in th
