## Product Datasheet

### Anti-Caenorhabditis elegans Ego1 (RABBIT) Antibody, Rabbit, Polyclonal ABT-ASR5344

Artikelname	Anti-Caenorhabditis elegans Ego1 (RABBIT) Antibody, Rabbit, Polyclonal
Artikelnummer	ABT-ASR5344
Hersteller Artikelnummer	ASR5344
Alternativnummer	ABT-ASR5344-100UG
Hersteller	Abcepta
Wirt	Rabbit
Kategorie	Antikörper
Immunogen	This affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to an internal region near amino acids 150-175 of C.elegans Ego 1 protein.
Produktbeschreibung	Ego1 (also known as Enhancer of Glp-One (glp-1) family member (ego-1) and RNA-directed RNA polymerase related protein EGO-1) is a putative RNA-directed RNA polymerase with a role in germ-line development and RNA interference....
Klonalität	Polyclonal
Konzentration	1.0mg/mL
UniProt	<a href="#">G5EBQ3</a>
Puffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Reinheit	This affinity-purified antibody is directed against C.elegans EGO-1 protein. The product was affinity purified from monospecific antiserum by immunoaffinity purification. A BLAST analysis was used to suggest that no cross reactivity should be expected ag
Anwendungsbeschreibung	This affinity-purified antibody has been tested for use in ELISA and by western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 190 kDa in size corresponding to EGO-1 protein by western blotting i
