Product Datasheet

Pig Fc gamma RIIa / CD32a protein, Unconjugated GMP-PIGR2A-U

Artikelname	Pig Fc gamma RIIa / CD32a protein, Unconjugated
Artikelnummer	GMP-PIGR2A-U
Hersteller Artikelnummer	PIGR2A-U
Alternativnummer	GMP-PIGR2A-U-250, GMP-PIGR2A-U-5
Hersteller	Gamma Proteins UK
Kategorie	Proteine/Peptide
Applikation	BLI, ELISA, SBR
Spezies Reaktivität	Porcine
Konjugation	Unconjugated
Produktbeschreibung	The sequence of the extracellular domain of porcine CD32a (Ala 1- Gln 185) was fused with a C-terminal tag consisting of the AVI tag, TEV protease recognition sequence and a 10-His tag. The full protein sequence can be downloaded from the product webp...
Molekulargewicht	The recombinant pig CD32a including tag consists of 223 amino acids and has a theoretical mass of 25236 Da.
Expression System	Human embryonic kidney (HEK) 293 cells
Reinheit	>95% monomer purity as determined by SDS-PAGE and SEC-HPLC.
Formulierung	Lyophilized from sterile PBS, pH 7.4. No preservatives or cryoprotectants have been added.

Anwendungsbeschreibung

To obtain a final concentration of 1 mg/ml reconstitute 250 µg vials with 250 µl water and 1.0 mg vials with 1.0 ml water. Solubilize for 30 to 60 minutes at room temperature with occasional gentle mixing. Do not vortex.
