### TXN2 Thioredoxin-2 Yeast Recombinant Protein BOB-PROTP22803

|                          |                                                                                                                                             |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | TXN2 Thioredoxin-2 Yeast Recombinant Protein                                                                                                |
| Artikelnummer            | BOB-PROTP22803                                                                                                                              |
| Hersteller Artikelnummer | PROTP22803                                                                                                                                  |
| Alternativnummer         | BOB-PROTP22803-5UG, BOB-PROTP22803-20UG, BOB-PROTP22803-1MG                                                                                 |
| Hersteller               | Boster Bio                                                                                                                                  |
| Kategorie                | Proteine/Peptide                                                                                                                            |
| Spezies Reaktivität      | Yeast                                                                                                                                       |
| Produktbeschreibung      | Thioredoxin-2 Yeast Recombinant produced in E. coli is a single, non-glycosylated, polypeptide chain having a molecular mass of 12.6kDa.... |
| UniProt                  | <a href="#">P22803</a>                                                                                                                      |
| Puffer                   | Each mg of TRX2 protein contains 20mM phosphate buffer pH 7.4.                                                                              |
| Quelle                   | Escherichia coli                                                                                                                            |
| Reinheit                 | Greater than 95.0% as determined by SDS-PAGE.                                                                                               |
| Formulierung             | Sterile Lyophilized Powder.                                                                                                                 |
