Product Datasheet

Met (PTR1335) Antibody, Mouse, Monoclonal AST-W0260

| | |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname | Met (PTR1335) Antibody, Mouse, Monoclonal |
| Artikelnummer | AST-W0260 |
| Hersteller Artikelnummer | W0260 |
| Alternativnummer | AST-W0260-20, AST-W0260-50, AST-W0260-100, AST-W0260-200 |
| Hersteller | Assay Biotechnology |
| Wirt | Mouse |
| Kategorie | Antikörper |
| Applikation | ELISA, IF, WB |
| Spezies Reaktivität | Human, Monkey, Mouse, Rat |
| Immunogen | Synthesized peptide derived from human Met. AA range:1200-1300 |
| Produktbeschreibung | This gene encodes a member of the receptor tyrosine kinase family of proteins and the product of the proto-oncogene MET. The encoded preproprotein is proteolytically processed to generate alpha and beta subunits that are linked via disulfide bonds to... |
| Klonalität | Monoclonal |
| UniProt | P08581 |
| Quelle | Mouse, Monoclonal IgG1, kappa |
| Reinheit | Protein G |
| Formulierung | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA |

Application Verdünnung

WB 1:500-2000. IF 1:100-500. ELISA 1:1000-5000
