### Goat anti-HOXD13 EVE-EB09833

|                          |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| Artikelname              | Goat anti-HOXD13                                                                      |
| Artikelnummer            | EVE-EB09833                                                                           |
| Hersteller Artikelnummer | EB09833                                                                               |
| Alternativnummer         | EVE-EB09833                                                                           |
| Hersteller               | Everest                                                                               |
| Wirt                     | Goat                                                                                  |
| Kategorie                | Antikörper                                                                            |
| Applikation              | ELISA, IHC                                                                            |
| Spezies Reaktivität      | Human                                                                                 |
| Immunogen                | C-KSSFPGDVALNQPD                                                                      |
| Klonalität               | Polyclonal                                                                            |
| Molekulargewicht         | 36,1                                                                                  |
| NCBI                     | <a href="#">3239</a> , <a href="#">15433 (mouse)</a> , <a href="#">288154 (rat)</a> , |
| Reinheit                 | Antigen affinity purified                                                             |
| Sequenz                  | KSSFPGDVALNQPD                                                                        |
| Target-Kategorie         | Goat anti-HOXD13 Antibody                                                             |

|                        |                                                                                                                                                                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Peptide ELISA: antibody detection limit dilution 1:8000. Western Blot: Preliminary experiments in Human Breast cancer lysates gave no specific signal but low background (at antibody concentration up to 1µg/ml). Immunohistochemistry: In paraffin embedde |
