## Product Datasheet

### Goat anti-Klk6 / neurosin (mouse) EVE-EB09307

|                          |                                                               |
|--------------------------|---------------------------------------------------------------|
| Artikelname              | Goat anti-Klk6 / neurosin (mouse)                             |
| Artikelnummer            | EVE-EB09307                                                   |
| Hersteller Artikelnummer | EB09307                                                       |
| Alternativnummer         | EVE-EB09307                                                   |
| Hersteller               | Everest                                                       |
| Wirt                     | Goat                                                          |
| Kategorie                | Antikörper                                                    |
| Applikation              | ELISA, WB                                                     |
| Spezies Reaktivität      | Mouse                                                         |
| Immunogen                | KEKPGVYTDVCTHIR                                               |
| Klonalität               | Polyclonal                                                    |
| Molekulargewicht         | 27,5                                                          |
| NCBI                     | <a href="#">19144 (mouse)</a> , <a href="#">29245 (rat)</a> , |
| Reinheit                 | Antigen affinity purified                                     |
| Sequenz                  | KEKPGVYTDVCTHIR                                               |
| Target-Kategorie         | Goat anti-Klk6 / neurosin (mouse) Antibody                    |

|                        |                                                                                                                                                                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Peptide ELISA: antibody detection limit dilution 1:16000. Western Blot: Approx 22kDa band observed in Mouse Liver lysates (calculated MW of 27.5kDa according to NP_035307.1). Recommended concentration: 1-3µg/ml. An additional band of unknown identity w |
