### Influenza A Virus Antibody, Mouse, Monoclonal ECB-HM420

|                          |                                               |
|--------------------------|-----------------------------------------------|
| Artikelname              | Influenza A Virus Antibody, Mouse, Monoclonal |
| Artikelnummer            | ECB-HM420                                     |
| Hersteller Artikelnummer | ECB-HM420                                     |
| Alternativnummer         | ECB-HM420                                     |
| Hersteller               | EastCoast Bio                                 |
| Wirt                     | Mouse                                         |
| Kategorie                | Antikörper                                    |
| Applikation              | LF                                            |
| Immunogen                | Inactivated Influenza A Virus                 |
| Klonalität               | Monoclonal                                    |
| Isotyp                   | IgG2a                                         |
| Puffer                   | 10 mM Phosphate Buffered Saline, pH 7.4       |
| Quelle                   | Mouse                                         |
| Reinheit                 | >95% by SDS-PAGE                              |
| Formulierung             | Protein A Purified Monoclonal Antibody        |
| Lagerung                 | 2°C to 8°C                                    |
| Target-Kategorie         | Influenza A Virus Nucleoprotein               |

|                        |                                                                                                                                                                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Kommentar              | This product is intended for research and manufacturing uses only. It is not a diagnostic device. The user assumes all responsibility for care, custody and control of the material, including its disposal, in accordance with all regulations. |
| Anwendungsbeschreibung | Cross reactivity: No reactivity with Influenza B, Adenovirus, and RSV                                                                                                                                                                            |
