| Alternativnummer         | ABI-11-2007-100UG                                                                                                                                                                                                                                             |
| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | N-terminal of SARS-CoV-2/COVID-19 Nucleocapsid protein was used as the immunogen for this antibody.                                                                                                                                                           |
| Produktbeschreibung      | The structural nucleocapsid (N) protein of nCoV/SARS-CoV-2/COVID-19 is a predicted 46 kDa phosphoprotein having 419 amino acid residues. A short Serine rich stretch and a recognized nuclear localization signal are the unique features of the nucleocap... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Isotyp                   | Rabbit IgG                                                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">43740575</a>                                                                                                                                                                                                                                      |
| UniProt                  | <a href="#">P0DTC9</a>                                                                                                                                                                                                                                        |
| Puffer                   | 25 µg in 50 µl/100 µg in 200 µl PBS containing 0.05%BSA and 0.05% sodium azide. Sodium azide is highly toxic.                                                                                                                                                 |

|                        |                                                                                                                  |
