Product Datasheet

VEGFR2 Stable Cell Line-H ABI-14-515ACL

Artikelname	VEGFR2 Stable Cell Line-H
Artikelnummer	ABI-14-515ACL
Hersteller Artikelnummer	14-515ACL
Alternativnummer	ABI-14-515ACL-1VIAL
Hersteller	Abeomics
Kategorie	Zellen/Zellkultur
Applikation	FA
Produktbeschreibung	VEGFR2 Stable Cell Line-H is a stably transfected HEK293 cell line which expresses human vascular endothelial growth factor receptor 2 (VEGFR2, also known as CD309, KDR and FLT-1). Sequence data: hVEGFR2 (accession number NP_002010) MVSYWDTGVLLCALLSC...
Application Verdünnung	Application:.. Screen for antibodies of human VEGFR2 through Flow Cytometry. Culture conditions: Cells should be grown at 37C with 5% CO2 using DMEM medium (w/ L-Glutamine, 4.5g/L Glucose and Sodium Pyruvate) supplemented with 10% heat-inactivated FBS an
