Product Datasheet

Anti-Cytokinin | N6-isopentenyladenosine (), Polyclonal AGR-AS09-415

Artikelname	Anti-Cytokinin N6-isopentenyladenosine (), Polyclonal
Artikelnummer	AGR-AS09-415
Hersteller Artikelnummer	AS09-415
Alternativnummer	AGR-AS09-415
Hersteller	Agrisera
Wirt	Rabbit
Kategorie	Antikörper
Applikation	ELISA, RIA
Immunogen	BSA-conjugated, via ribose, N6-isopentenyladenosine
Produktbeschreibung	Cytokinins (CK) belong to a class of plant growth substances (plant hormones) which promote cell division by means of local and long distance signalling. Zeatin is an adenine-type cytokinin synthesised in stems, leaves and roots....
Klonalität	Polyclonal
Reinheit	Total IgG. Protein G purified in PBS.
Formulierung	Lyophilized
Antibody Type	Polyclonal Antibody
Application Verdünnung	2-10 l/15 ml, Specific information about dilution is going to be included on the vial

Anwendungsbeschreibung

This antibody recognize a6A but not m6A or A, which is caused by the geometrical similarity between isopentenyl and allyl (Shu et al., 2020).
