Mouse anti double-stranded RNA (J5) NMB-10040500

Article Name	Mouse anti double-stranded RNA (J5)
Biozol Catalog Number	NMB-10040500
Supplier Catalog Number	10040500
Alternative Catalog Number	NMB-10040500
Manufacturer	NordicMubio
Host	Mouse
Category	Antikörper
Application	ELISA, ICC, IHC, WB
Product Description	Over the past decade our double-stranded RNA (dsRNA)antibodies have been used extensively to detect and characterise plant and animal viruses with dsRNA genomes or intermediates. In addition, the anti-dsRNA antibodies can be used as a diagnostic tool...
Clonality	Monoclonal
Concentration	Concentration after reconstitution: 1.00 mg/ml as determined by A280 nm (A280 nm = 1.47 corresponds to 1 mg/ml antibod
Clone Designation	J5
Isotype	IgG2b kappa
Buffer	Mouse monoclonal antibody J5 recognises double-stranded RNA (dsRNA) provided that the length of the helix is greater than or equal to 40 bp. dsRNA-recognition is independent of the sequence and nucleotide composition of the antigen. All naturally occurri

Source	Female DBA/2 mice were injected intraperitoneally with a mixture of 50 ug L-dsRNA and 75 ug methylated bovine serum albumin, emulsified in complete Freund's adjuvant. After several boosts spleen cells were fused with Sp2/0-Ag14 myeloma cells to generate t
Purity	Gel electrophoretically pure IgG antibody.
Formula	The lyophilised sample should be reconstituted with 500 µl sterile distilled water. The mAb will then be in PBS without any stabilisers or preservatives at a concentration of 1 mgr/ml. As a result of the lyophilisation procedure, the reconstituted antibo
Application Notes	Mouse monoclonal antibody J5 can be used for ELISA, dsRNA-immunoblotting, immunoaffinity chromatography and in certain systems also for immunohistochemistry (see references). The optimum working dilution of the antibody for any specific application shoul
