## Product Datasheet

### Goat anti Human IgD (Fc specific), Clone: [Polyclonal], Monoclonal NMB-GAHU/IGD(FC)

Article Name	Goat anti Human IgD (Fc specific), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAHU/IGD(FC)
Supplier Catalog Number	GAHu/IgD(Fc)
Alternative Catalog Number	NMB-GAHU/IGD(FC)
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgD molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal human serum containing monoclonal IgD a single precipitin lin...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized an
Source	Highly purified monoclonal IgD isolated from human serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 $\mu$ l serum or equivalent against 120 $\mu$ l antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 $\mu$ l antiserum in 3 mm diameter center well and 2 $\mu$ l serum samples (neat
