Product Datasheet

Goat anti Human kininogen, Clone: [Polyclonal], Monoclonal NMB-GAHU/KG

Article Name	Goat anti Human kininogen, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAHU/KG
Supplier Catalog Number	GAHu/Kg
Alternative Catalog Number	NMB-GAHU/KG
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The heavy chains in HMWK and LMWK share immunologic determinants, but they have no procoagulant activities. The light chain of HMWK is unique to this molecule and carries the entire procoagulant activity of the molecule. The antiserum does not distin...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P01042
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Recons titute the lyophilized
Source	Human plasma contains at least two distinct forms of kininogen, the carrier molecule of bradykinin, which can be distinguished by their physical, chemical and immunochemical properties. They are designated high-molecular-weight kininogen (HMWK) and low-m

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Application Notes	Precipitation assays. For electroimmunodiffusion a concentration of 1-2% of antiserum in the gel is recommended.
