Product Datasheet

Goat anti Monkey IgG IgA IgM (heavy and light chains), Clone: [Polyclonal], Monoclonal NMB-GAMON/IG

Article Name	Goat anti Monkey IgG IgA IgM (heavy and light chains), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAMON/IG
Supplier Catalog Number	GAMon/Ig
Alternative Catalog Number	NMB-GAMON/IG
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The reactivity of the antiserum is directed to the Fc and the Fab subunits of the major immunoglobulins. It does not react with any non-Ig protein in monkey serum, as tested by immunoelectrophoresis and double radial immunodiffusion. In immunoelectro...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized stable whole serum No preservative added, as it may interfere with the antibody activity. No foreign protein added. Total protein and IgG concentration in the antiserum are comparable to those of pooled goat ser
Source	Purified normal IgG, IgA and IgM fractions isolated from pooled rhesus monkey serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized stable whole serum No preservative added, as it may interfere with the antibody activity. No foreign protein added. Total protein and IgG concentration in the antiserum are comparable to those of pooled goat ser
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in a 3 mm diameter centre well and 2 µl serum samples (neat and diluted) in 2
