## Product Datasheet

### Goat anti Monkey milk proteins, Clone: [Polyclonal], Monoclonal NMB-GAMON/TM

Article Name	Goat anti Monkey milk proteins, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAMON/TM
Supplier Catalog Number	GAMon/TM
Alternative Catalog Number	NMB-GAMON/TM
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	In immunoelectrophoresis against monkey milk precipitation of not less than 8 different proteins may be obtained. However the number of visible precipitin lines varies widely among individual specimens of monkey milk. The total concentration of prote...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized a
Source	Pooled whole rhesus monkey milk. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.

Application Notes

Precipitation assays. In immunoelectrophoresis use 2  $\mu$ l serum or equivalent against 120  $\mu$ l antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10  $\mu$ l antiserum in 3 mm diameter center well and 2  $\mu$ l serum samples (neat
