Goat anti Rabbit IgG IgA IgM (heavy and light chains), conjugated with Biotin, Clone: [Polyclonal], Monoclonal NMB-GAR/IG/BIO

Article Name	Goat anti Rabbit IgG IgA IgM (heavy and light chains), conjugated with Biotin, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GAR/IG/BIO
Supplier Catalog Number	GAR/Ig/Bio
Alternative Catalog Number	NMB-GAR/IG/BIO
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Conjugation	Biotin
Product Description	The reactivity of the antiserum is directed to the Fc and Fab subunits of the major immunoglobulin es. It does not react with any non-Ig protein in rabbit serum, as tested by immunoelectrophoresis and double radial immunodiffusion. In immunocytochemi...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Biotin-coupled purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun d

Source	Purified normal IgG, IgA and IgM isolated from pooled rabbit serum. Freund's complete adjuvant is used in the first step of the immunization procedure.
Formula	Biotin-coupled purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity.
Application Notes	ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.
