Goat anti Rat IgG1 IgG2a IgG2b IgG2c (Fc specific), Clone: [Polyclonal], Monoclonal NMB-GARA/IGG(FC)/7S

| | |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Name | Goat anti Rat IgG1 IgG2a IgG2b IgG2c (Fc specific), Clone: [Polyclonal], Monoclonal |
| Biozol Catalog Number | NMB-GARA/IGG(FC)/7S |
| Supplier Catalog Number | GARa/IgG(Fc)/7S |
| Alternative Catalog Number | NMB-GARA/IGG(FC)/7S |
| Manufacturer | NordicMubio |
| Host | Goat |
| Category | Antikörper |
| Product Description | The reactivity of the antiserum is directed to the Fc subunit of the IgG molecule including all subclasses. In immunoelectrophoresis and double radial immunodiffusion, using various antiserum concentrations against normal rat plasma and serum, a char... |
| Clonality | Monoclonal |
| Clone Designation | [Polyclonal] |
| Buffer | Purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun down to remove i |
| Source | Purified normal IgG, including all subclasses, isolated from pooled rat serum. Freund's complete adjuvant is used in the first step of the immunization procedure. |
