## Product Datasheet

### **Rabbit anti Dog albumin, conjugated with FITC, Clone: [Polyclonal], Monoclonal NMB-RAD/ALB/FITC**

|                            |  |
|----------------------------|--|
| Article Name               | Rabbit anti Dog albumin, conjugated with FITC, Clone: [Polyclonal],<br>Monoclonal  |
| Biozol Catalog Number      | NMB-RAD/ALB/FITC   |
| Supplier Catalog Number    | RAD/Alb/FITC   |
| Alternative Catalog Number | NMB-RAD/ALB/FITC   |
| Manufacturer               | NordicMubio  |
| Host                       | Rabbit   |
| Category                   | Antikörper   |
| Conjugation                | FITC   |
| Product Description        | The defined antibody specificity is directed to albumin as tested against dog sera. In immunoelectrophoresis and double radial immunodiffusion (Ouchterlony), using various antiserum concentrations against appropriate concentrations of the immunogen, ...  |
| Clonality                  | Monoclonal   |
| Clone Designation          | [Polyclonal]   |
| Buffer                     | Purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added. It is reconstituted by adding 1 ml sterile distilled water, spun down to remove insoluble particles, divided into small aliquot |

|                   |  |
|-------------------|--|
| Source            | Albumin is a stable small polypeptide with a strong antigenicity. Its molecular weight is about 69,000. It has a high mobility in electrophoresis, shows macro-heterogeneity especially under pathological conditions and it can bind a large number of physio |
| Formula           | Purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added.   |
| Application Notes | ELISA, Immunocytochemistry, Immunohistochemistry (frozen), (In)direct immunofluorescence.  |
