Product Datasheet

Rabbit anti Duck Serum proteins, Clone: [Polyclonal], Monoclonal NMB-RADU/TSP

Article Name	Rabbit anti Duck Serum proteins, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RADU/TSP
Supplier Catalog Number	RADu/TSP
Alternative Catalog Number	NMB-RADU/TSP
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	In immunoelectrophoresis against pooled serum and enriched serum proteins fractions precipitation can be observed of not less than 12 individual proteins components. In precipitating techniques as immunoelectrophoresis and radial immunodiffusion (Ouc...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilize
Source	Pooled whole duck serum and partly purified serum fractions. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l serum or equivalent against 120 μ l antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 μ l antiserum in 3 mm diameter center well and 2 μ l serum samples (neat
