Rabbit anti Hamster Serum proteins, Clone: [Polyclonal], Monoclonal NMB-RAHA/TSP

| | |
|----------------------------|--|
| Article Name | Rabbit anti Hamster Serum proteins, Clone: [Polyclonal], Monoclonal |
| Biozol Catalog Number | NMB-RAHA/TSP |
| Supplier Catalog Number | RAHa/TSP |
| Alternative Catalog Number | NMB-RAHA/TSP |
| Manufacturer | NordicMubio |
| Host | Rabbit |
| Category | Antikörper |
| Product Description | In immunoelectrophoresis against pooled serum and enriched serum proteins fractions precipitation can be observed of not less than 10 individual proteins components. In precipitating techniques as immunoelectrophoresis and radial immunodiffusion (Ouc... |
| Clonality | Monoclonal |
| Clone Designation | [Polyclonal] |
| Buffer | Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilize |
| Source | Pooled whole hamster serum and partly purified serum fractions. Freund's complete adjuvant is used in the first step of the immunization procedure. |

| | |
|-------------------|--|
| Formula | Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. |
| Application Notes | Precipitation assays. Different bleedings of the immunized animals are pooled to obtain a broad spectrum balanced against the varying concentrations of the individual serum protein components. |
