Product Datasheet

Rabbit anti Human alpha-1 foetoprotein, Clone: [Polyclonal], Monoclonal NMB-RAHU/AFP

Article Name	Rabbit anti Human alpha-1 foetoprotein, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAHU/AFP
Supplier Catalog Number	RAHu/AFP
Alternative Catalog Number	NMB-RAHU/AFP
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to alpha-foetoprotein. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against amniotic fluid, hepatoma sera and purified alpha-foetoprotein a single precipitin...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P02771
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilize
Source	Purified human alpha-foetoprotein is isolated from pooled amniotic fluid and hepatoma serum, using a proprietary multiple step method. Several foetoproteins have been demonstrated in human foetal serum and amniotic fluid. One of the best studied is the a

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l amniotic fluid or equivalent against 120 μ l antiserum. In double radial immunodiffusion use a rosette arrangement with 10 μ l antiserum in 3 mm diameter center well and 2 μ l amniotic fluid or heptom
